8. Deposits and credit checks

1. Your billing cycle

Every postpaid account has a monthly billing cycle that starts on the 1st day of the month and ends on the last day of the month. Monthly fees are charged in advance for the coming month. Usage outside the plan, such as extra data add-ons, calls to premium numbers or roaming outside the EU, is charged in arrears on the next invoice.

Invoices are issued on the 3rd working day of each month. The payment due date is the 20th day of the same month. If the 20th falls on a weekend or public holiday, the due date moves to the next working day.

Your first invoice

The first invoice after signing a contract is usually higher than normal. It includes the proportional monthly fee for the days from activation to the end of the first month, plus the full monthly fee for the next month. For example, a Zarya Smart plan activated on 16 April is billed about 8.50 EUR for 16 to 30 April plus 16.99 EUR for May on the invoice issued in early May.

2. Reading your invoice

Each invoice contains the following parts: a summary of the amount due and due date, monthly fees for each plan and service, one-time charges, usage outside the plan, device installments, discounts, and VAT. Customers with more than one plan see a separate section for each phone number or service address.

Invoice line	What it means
Monthly fee	The fixed price of your plan for the coming month
Usage outside plan	Charges for services not included in your plan, for the previous month
Device installment 7/24	The 7th of 24 installments for a device
Proportional fee	Part of a monthly fee for less than a full month
Family discount -15%	Discount for additional plans on the same account
Bundle discount	Home+Mobile discount, 5 EUR off home internet

A detailed call and data record (itemized bill) is available free of charge in the Zarya app for the last 6 months. A printed itemized bill can be requested in a store for 2 EUR per month requested.

3. E-invoice and paper invoice

All new customers receive an electronic invoice by email and in the Zarya app at no cost. An e-invoice has the same legal value as a paper invoice. Customers who prefer a paper invoice delivered by post can switch in a store or by calling customer service; paper invoices cost 1 EUR per month. Customers aged 70 or over receive paper invoices free of charge on request.

4. Ways to pay

Method	When the payment is registered	Fee
Zarya app or zarya.example (card)	Immediately	Free
Direct debit from bank account	On the due date	Free
Automatic card payment	On the due date	Free

Method	When the payment is registered	Fee
Bank transfer	1 to 2 working days	Depends on your bank
Zarya store (cash or card)	Immediately	Free
Partner payment points and post offices	Up to 1 working day	Up to 0.50 EUR

Customers who pay by direct debit or automatic card payment receive a 1 EUR discount per month on their total invoice. The discount appears from the second invoice after the setup. If an automatic payment fails twice in a row, the discount is removed and the customer is notified by SMS.

For bank transfers, always write your customer number (it starts with ZT and has 9 digits) in the payment reason. Payments without a customer number can take up to 5 working days to be matched to the correct account.

5. Late payment and suspension

If an invoice is not paid by the due date, Zarya sends a reminder by SMS and email on the next working day. The steps below apply to unpaid invoices:

Days after due date	What happens
1 day	Reminder by SMS and email
10 days	Second reminder; outgoing international and premium calls are blocked
20 days	All outgoing services are suspended; incoming calls and emergency calls (112) still work
45 days	All services are suspended and the contract may be terminated by Zarya
60 days	The debt may be passed to a collection agency

A late payment fee of 0.05% of the unpaid amount per day is charged, capped at 10% of the invoice amount. After payment, services are restored automatically within 2 hours. A reconnection fee of 5 EUR applies if services were fully suspended.

6. Disputes and corrections

If you think an amount on your invoice is wrong, you can file a dispute within 30 days of the invoice date. You can do this in the Zarya app under Invoices, Report a problem, by calling 0800 12 345, or in any store. Zarya replies within 14 days. While a dispute is open, you only need to pay the part of the invoice that is not disputed, and services are not suspended for the disputed amount.

If the dispute is accepted, the corrected amount is credited to the next invoice. If the account is closed, the money is refunded by bank transfer within 10 working days to an IBAN provided by the customer.

7. Spending limit and bill shock protection

Every postpaid plan has a default spending limit of 50 EUR per month for usage outside the plan. When 80% of the limit is reached, the customer gets an SMS. When the limit is reached, chargeable services outside the plan are paused until the customer confirms they want to continue by replying YES to the SMS. The limit can be changed in the Zarya app to any value between 10 and 500 EUR.

For roaming outside the EU, a separate data limit of 50 EUR plus VAT applies by law. See the Roaming and International Guide for details.

8. Deposits and credit checks

New customers who buy a device on installments worth more than 600 EUR may be asked for a deposit of up to 20% of the device price, depending on an internal credit check. The deposit is returned as a credit on the invoice after 12 months of on-time payments. Business customers with more than 10 lines are exempt from deposits.
