1. How device prices work

This list shows Zarya Telecom device prices from 1 October 2026 until the next list is published. All prices are in EUR and include 20% VAT. All prices in this document are fictional and created for a demo project; they are not real offers from any manufacturer or retailer.

The price of a phone depends on the mobile plan you take with it. The higher the plan, the bigger the device discount. The discount is given only with a new 24-month contract or a 24-month renewal, and only on one device per plan.

Mobile plan	Device discount	Example: iPhone 18 Pro 256 GB
No plan (full price)	None	1,399 EUR
Zarya Start (11.99 EUR)	None, 0% installments only	1,399 EUR
Zarya Smart (16.99 EUR)	5%	1,329 EUR
Zarya Max (22.99 EUR)	10%	1,259 EUR
Zarya Unlimited Pro (29.99 EUR)	15%	1,189 EUR

How to read the tables: each cell shows the total device price with that plan, then how it is paid: a small upfront payment plus 24 equal monthly installments at 0% interest. For example, "1,259 EUR, 11 + 24 x 52.00" means you pay 11 EUR in the store and 52 EUR per month on your invoice for 24 months, on top of the plan's monthly fee. Without a plan, devices can be paid in full or on 12 installments after a credit check.

If you change to a lower plan during the first 12 months, the difference in device discount is added to your next invoice. Moving to a higher plan does not lower the price of a device you already have.
