8. Complaints
9. Personal data
10. Liability and service quality

1. Parties and scope

These General Terms govern the relationship between Zarya Telecom EAD, a fictional company used for demonstration purposes, registered in Sofia (the Provider), and consumers who use its mobile, internet and TV services (the Customer). Specific prices are set in the current Price List. Where these Terms and an individual contract differ, the individual contract applies.

2. Signing a contract

A contract can be signed in a Zarya store, online at zarya.example with electronic identification, or by phone with confirmation by SMS code. The Customer must be at least 18 years old and present a valid ID card or passport. Foreign citizens can sign with a passport and proof of address in Bulgaria.

Before the contract is signed, the Provider gives the Customer a contract summary with the main terms, price and duration, as required by the Electronic Communications Act.

3. Right of withdrawal (cooling-off)

A contract signed online or by phone can be cancelled within 14 days of signing without giving a reason and without paying a penalty. The Customer pays only for services used during that period. A device received with the contract must be returned unused and in its original packaging within the same 14 days. Contracts signed in a store have no cooling-off period.

4. Contract duration and automatic extension

Fixed-term contracts last 12 or 24 months. When the fixed term ends, the contract continues for an indefinite period at the same price, unless the Customer chooses a new plan. A contract for an indefinite period can be terminated by the Customer at any time with 30 days' written notice and no fee.

The Provider reminds the Customer by SMS and email 30 days before the end of the fixed term and informs them of the best available plan for their usage.

5. Early termination

If the Customer terminates a fixed-term contract early, they pay an early termination fee. The fee equals the monthly fees for the remaining months, but no more than 3 monthly fees, plus any remaining device installments. Promotional discounts received during the contract are not charged back.

Example	Calculation	Fee
Zarya Smart (16.99 EUR), 10 months left, no device	3 x 16.99 EUR (capped at 3 fees)	50.97 EUR
Fiber 500 (18.99 EUR), 2 months left	2 x 18.99 EUR	37.98 EUR
Zarya Max (22.99 EUR), 6 months left, phone with 6 installments of 30 EUR	3 x 22.99 EUR + 6 x 30 EUR	248.97 EUR

No early termination fee applies if the Customer terminates because the Provider changed the contract terms to the Customer's disadvantage, if the Customer moves to an address where the service is not available (for home internet only, with proof of the new address), or in case of the Customer's death.

6. Changes to the terms and prices

The Provider may change these Terms or prices for objective reasons such as changes in law or inflation. The Customer is notified at least 30 days before the change by SMS, email or on the invoice. If the change is to the Customer's disadvantage, the Customer may terminate the contract without a fee within 30 days of the notice. Annual price indexation based on the consumer price index is limited to 5% per year and is announced in January.

7. Moving to a new address

Home internet and TV can be moved to a new address within Bulgaria if Zarya has coverage there. The move costs 20 EUR and is free once during a 24-month contract. Request the move at least 7 days in advance. The contract term does not restart.

8. Complaints

Customers can submit a complaint in any store, by email to complaints@zarya.example, through the Zarya app, or by phone at 0800 12 345. The Provider registers the complaint and gives the Customer a reference number. The Provider replies in writing within 30 days. Complaints about invoices must be submitted within 30 days of the invoice date.

If the Customer is not satisfied with the reply, they may contact the Communications Regulation Commission or the Commission for Consumer Protection, or use an alternative dispute resolution body.

9. Personal data

The Provider processes personal data under the General Data Protection Regulation (GDPR). Call and data records are kept for 6 months for billing purposes. The Customer can request a copy of their data, correction or deletion by emailing privacy@zarya.example. The Provider replies within 30 days. Marketing messages are sent only with the Customer's consent, which can be withdrawn at any time in the Zarya app.

10. Liability and service quality

The Provider guarantees the minimum service levels stated in the contract summary. For fiber home internet, the minimum download speed is 60% of the advertised speed and the normally available speed is 80%. If measured speeds are repeatedly below the minimum, the Customer may request a price reduction or terminate the contract without a fee.

The Provider is not liable for interruptions caused by force majeure, actions of third parties, or the Customer's own equipment.
