

Roaming and International Guide

Using your Zarya number abroad and calling other countries

Document ZT-RI-2026-02. Customer service: 0800 12 345 (free, 24/7). From abroad: +359 2 900 1234. Web: zarya.example

Contents

1. Roaming in the EU and EEA (Roam Like at Home)
2. Switzerland, the United Kingdom and other countries
3. Travel passes
4. Before you travel
5. Calling other countries from Bulgaria
6. Problems while roaming

1. Roaming in the EU and EEA (Roam Like at Home)

When you travel in any EU country, Iceland, Liechtenstein or Norway, you use your plan's minutes, SMS and data at no extra cost, the same as in Bulgaria. This is called Roam Like at Home. It is switched on automatically for all postpaid and prepaid customers; you do not need to activate anything.

Calls and SMS within the EU are included in your plan. Mobile data in the EU is subject to a fair use limit that depends on your plan. The limits are shown in the table below and in the Price List.

Plan	EU roaming data at no extra cost per month
Zarya Start	7 GB
Zarya Smart	12 GB
Zarya Max	18 GB
Zarya Unlimited Pro	25 GB
Zarya Go prepaid	Same as the active bundle, up to 6 GB

After the fair use limit is used, data in the EU costs 1.55 EUR per GB including VAT, charged per 100 KB. You get an SMS when you reach the limit.

Fair use and long stays

Roam Like at Home is meant for periodic travel. If over a 4-month period you spend more time abroad than in Bulgaria and use more data abroad than at home, Zarya may send you a notice. If the pattern continues for 14 more days, roaming surcharges may apply. Students studying abroad and posted workers can ask to be exempted by providing proof.

2. Switzerland, the United Kingdom and other countries

Switzerland and the United Kingdom are not part of Roam Like at Home. Zarya groups all other countries into roaming zones. Prices are per minute, per SMS and per MB, and include VAT.

Zone	Countries (examples)	Calls made	Calls received	SMS	Data per MB
Zone 1	Switzerland, UK, Turkey, Serbia, North Macedonia	0.60 EUR	0.25 EUR	0.20 EUR	0.15 EUR
Zone 2	USA, Canada, Israel, UAE, Ukraine	1.20 EUR	0.60 EUR	0.35 EUR	0.60 EUR
Zone 3	Rest of the world	2.40 EUR	1.20 EUR	0.50 EUR	6.00 EUR
Zone 4	Ships, aircraft and satellite networks	4.80 EUR	2.40 EUR	0.80 EUR	12.00 EUR

To protect you from high bills, data roaming outside the EU stops when charges reach 50 EUR plus VAT in a billing cycle. You can continue by replying YES to the SMS Zarya sends at that point.

3. Travel passes

Travel passes give you a daily or weekly allowance at a fixed price in zones 1 and 2. A pass starts when you first use data, make or receive a call in the zone. Passes can be bought in the Zarya app or by sending the pass code by SMS to 1234.

Pass	Zones	Allowance	Price	SMS code
Day Pass Zone 1	Zone 1	1 GB + 30 min	4.00 EUR per day	DAY1
Week Pass Zone 1	Zone 1	5 GB + 100 min	15.00 EUR	WEEK1
Week Pass World	Zones 1 and 2	3 GB + 60 min	25.00 EUR	WORLD7

4. Before you travel

- Check that roaming is active: it is on by default for postpaid plans. Prepaid customers need at least 1 EUR of credit to roam outside the EU.
- Turn on data roaming in your phone settings (iPhone: Settings, Mobile Service, Mobile Data Options, Data Roaming).
- Buy a travel pass before you leave if you go outside the EU.
- Remember your PIN and PUK codes. A blocked SIM abroad can only be unblocked with the PUK.
- Save the Zarya support number +359 2 900 1234, which is free to call from abroad.

5. Calling other countries from Bulgaria

International calls from Bulgaria are not the same as roaming. Calls from Bulgaria to EU numbers are included up to the minutes in your plan (for example 120 minutes on Zarya Smart). After that, and for calls to non-EU countries, the following prices apply per minute:

Destination	Price per minute
EU and EEA, beyond plan minutes	0.19 EUR
Zone 1 countries	0.35 EUR
USA and Canada	0.25 EUR
Rest of the world	0.90 EUR
Satellite numbers	6.00 EUR

The International 100 add-on gives 100 minutes to Zone 1, USA and Canada for 5 EUR per month.

6. Problems while roaming

If mobile data does not work abroad, first restart your phone and check that data roaming is on. Then select the network manually in your phone settings and try another partner network. Make sure the APN is set to internet.zarya. If the problem continues, call +359 2 900 1234 (free from abroad) or chat with us in the Zarya app.

Zarya's preferred partners are listed in the Zarya app under Roaming, Partner networks. Using a non-preferred network does not change the price inside the EU.
